PLANAR

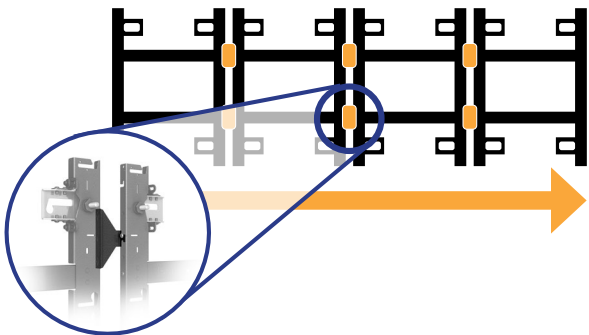

The Chief TiLED™ mounts are great from a stocking standpoint. The modularity of the mounting system enables us to have an extremely flexible inventory. Being able to mix and match different mounts to build a variety of configurations allows us to respond immediately to customers ever-changing needs. There is no waiting for custom designs and custom lead times!"

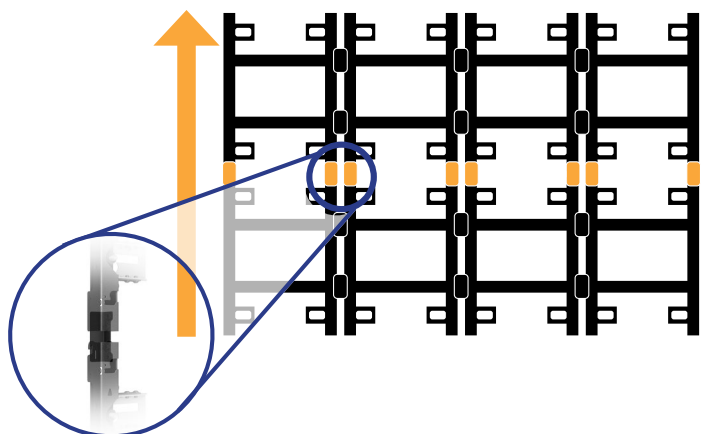

-John Borns CTS, Business Development Manager, Almo Professional A/V

Ships with horizontal connectors

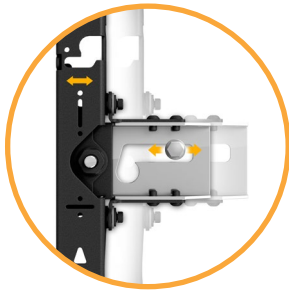

Vertical connectors sold separately

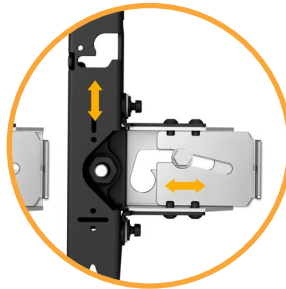

EASY TO INSTALL. FLEXIBLE INSTALLATION

Installer inspired, the TiLED™ Series is lightweight, low profile and includes all the necessary x-y-z axis adjustments to install a perfectly aligned LED Video wall. Engineered to minimize costly time spent on the jobsite!

X-axis lateral shift adjustments enables perfect LED positioning

- Primary lateral shift at wall for mount positioning
- Secondary lateral shift at mount keyhole slot for LED display positioning

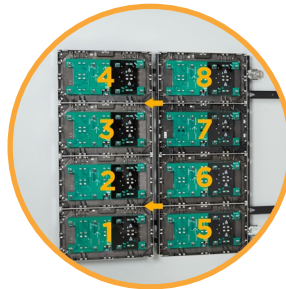

Y-axis vertical shift

adjustments provide leveling and perfect cabinet-to-cabinet alignment

Z-axis plumb adjustments

compensate for wall imperfections to achieve perfectly flat mounting surfaces

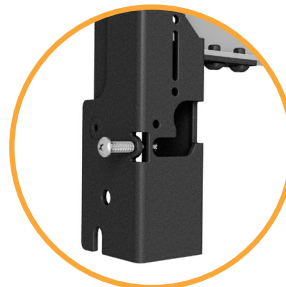

Column based system

installation order supports easy cabinet connections and provides pixel protection for displays with integrated modules

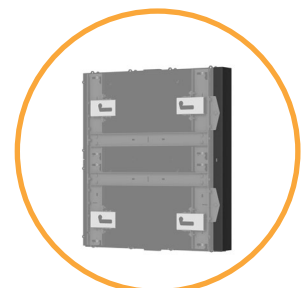

Friendly Clearances

provide the needed freedom for aligning fine pixel pitch LED displays

Side Lock Screws

lockout LED configuration eliminating cabinet movement

Low-profile design

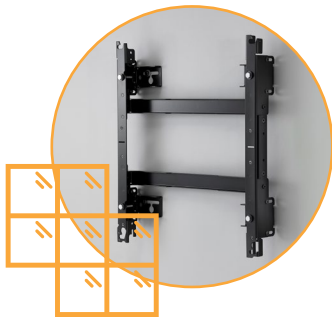

accommodates minimum depth wall requirements

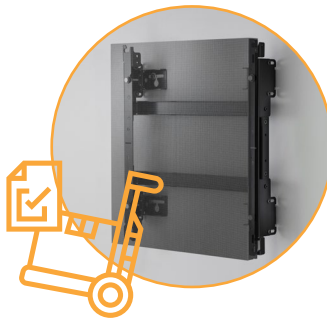

"The Chief mounts really are the premium LED mounting solution. They have all the necessary adjustments to get LED video walls perfectly aligned. Not just perfect but timely. You will definitely save installation time on the job with the Chief TiLED™ Series wall mounts."

- Senior Field Applications Engineer, LED Manufacturer
