

DESIGNED FOR EVERY STAGE

PORTABLE FLAT PANEL STAND SPECIFICATIONS

The PRSU Portable Flat Panel Stand was designed for every stage of use from storage to transport to set up to teardown. No tools are needed, and most people can set it up in under two minutes, even the first time. The rugged design can withstand the wear and tear that is commonplace in the rental and staging market. The PRSU also breaks down and folds up for easy space savings and can be stored in a customized, wheeled case accessory.

Ideal for a variety of applications when portable digital signage is needed: rental and staging, corporate, retail, hospitality, transportation, healthcare and more!
