

Tensioned Advantage® and Advantage with SightLine™

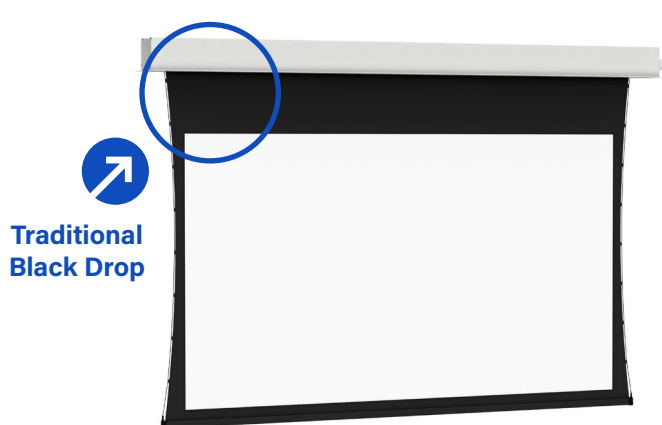

Electric Screen with Cable Drop

Da-Lite's cable drop feature, SightLine™, available with the tried-and-true Tensioned Advantage® and Advantage electric screens, gives the impression of a floating screen. A suspension system in its single roller design features 3 or 4 thin cables eliminating the need for black drop – the black border above the projection screen. While the market is accustomed to specifying drop distance upon ordering, now vertical placement of the screen can be variable as the cables accommodate a range of drop distances up to 70" (standard) or 10' (option) between the ceiling and the top of the screen – making ordering a snap. What's more, this feature creates usable space above the viewing area to preserve architectural interests and provides the opportunity for camera/speaker placement. Enhanced aesthetics, painless ordering, smooth installation and future proofing for height adjustability – **this is the fine line between status quo and jaw drop.**

What is cable drop? And what makes it so versatile?

You're accustomed to specifying drop distance during the ordering process. Now, make ordering a snap!

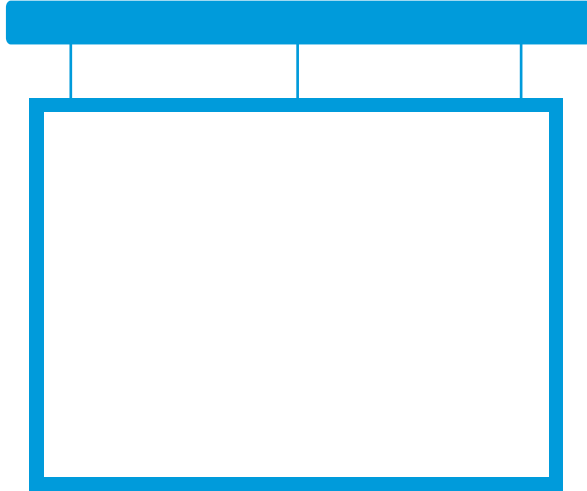

Now, vertical placement of the screen can be variable!

Cables accommodate a range of drop distances up to 70" (standard) or 10' (option) between the ceiling and the top of the screen.

Benefits

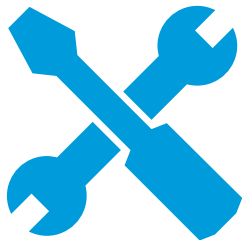

Enhanced aesthetics

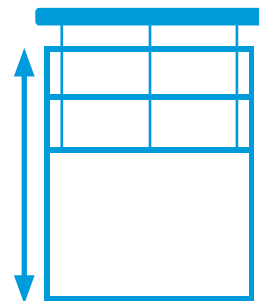

- Gives the impression of a floating screen
- Creates usable space above the viewing
- Preserve architectural interests
- Provides the opportunity for camera/speaker placement

**Painless ordering process
without the added step of
custom drawings and approval**

**Smooth installation as vertical
placement of the screen can be variable
up to 70" (standard) or 10' (option)**

**Future proofing for height
adjustability to accommodate
room reconfigurations**

Applications

From standard ceilings to high ceilings

- Boardrooms
- Large conference rooms or multi-purpose spaces
- Rec rooms
- Home theatres
- Small lecture halls
